Bridges

1. A bridge will be constructed as soon as possible over the Sava river near Suhaca. It will be 110 meters long, and will serve the narrow gauge industrial railway which is being laid to service the new coal mine at Suhaca.
2. A railway bridge is being built at Vukovar over the Vuka. On the same site, a road bridge has been built over the railroad for the Zagreb-Belgrade road.
3. A railroad bridge is being built over the Cesma river between Vojni Kralj (sic) and Ludina. It will be 42 meters long.
4. An important new road bridge is under construction near Petrovac on the highway from Belgrade to Krugujevac.
5. The iron bridge over the Kolubara river near Lajkovac (sic, possibly Lajkjevac) which was destroyed during the war, is being reconstructed.
6. The bridge on the state road from Berane to Bijelo Polje over the Skadar river, has been reopened to traffic. It is of reinforced concrete and is 46 meters long, 11 meters high, and six meters wide.

Comment: The Skadevac river has not been identified on this road.)

7. Four bridges of reinforced concrete are being built over the Bosna river on the Kakanj - Visoko road.
8. Work on the bridge over the Drina river near Oglina has been completed. The bridge has a span of about 60 meters.
9. The bridge of reinforced concrete over the Plitvica river near the village of Zabljaka has been rebuilt.
10. Work has been finished on the bridge over the Moraca near Bilec (sic).

11. Major bridges in construction, or about to be constructed, in Croatia are as follows:

<u>Location</u>	<u>River</u>	<u>Remarks</u>
Novska	V. Struga	115 meters long
Metkovic	Neretva	on the Adriatic road
Stara Gradisca (sic)	Sava	iron
Osijsk		iron, 250 meters long
Skradin	Krka	120 meters long
Kosinj	Lika	stone
Budak	Lika	stone
Gromacnik		viaduct under construction
Ravnice		viaduct under construction
near Novi Marof	Bedra	reinforced concrete
Zapresic	Krapina	reinforced concrete
Knin	Krka	reinforced concrete
Obrovac	Zrmanja	reinforced concrete
Dalje or Dilje	Drava	reinforced concrete
Knin	Raciljevca	reinforced concrete
Mursko Sredisce	Mura	reinforced concrete
Jamnica	Kupa	wood, 13½ meters long

Roads

12. A carriage road between Saregrad and Mohovo has been completed. This road shortens the distance between Vukovar and Zemun by 30 kilometers.
13. An asphalt road is in construction which will unite the main roads to Belgrade - Budapest - Novi Sad - Irig at the top of Venec. This trunk road will be 13 kilometers long.
14. A trunk road from Pregrada to Durmanec is under construction. It will shorten the distance of the road between Prelog and Krapina by about 15 kilometers.
15. A road between the districts of Vladimirici and Skupljenska Baraka in Serbia is being constructed. It will be some 30 kilometers long.

Comment: Skupljenska has not been identified but may be in the marshland near the Sava river.

Canals

16. A canal, two kilometers long, six meters wide and six meters in depth, is being dug near Dotski through the Prolozac Blato to drain off the water from the zone. It is thought that 300 hectares of land will be drained.
